

Charlie Kratsch
Founder and CEO
Infinite Campus

Charlie began his professional career during high school by working for the Minnesota Educational Computing Consortium (MECC) where he developed software and configured computer labs for local school districts. Upon graduation, he vowed never to set foot in another school and bypassed college to become a technology entrepreneur. He founded and sold several companies that developed information systems for the healthcare and telecommunications industries.

Ironically, after a brief retirement, his stepfather, a school principal, challenged him to use his knowledge and experience to help education. Rising to the challenge, Charlie founded Infinite Campus in 1993, while serving as a district technology director in order to learn about education "from the inside." As a result, he has spent the better part of the last sixteen years in schools all over the country and has developed a thorough understanding of how schools work and interrelate.

Rick Bishop
Peopleware Specialist II
Computer Information Concepts

Rick joined CIC in December 2008 and currently provides support, training and project management services to districts in Colorado, Iowa, Kansas, Missouri, Nebraska and Wyoming. Prior to joining CIC Rick was a high school teacher and database coordinator for a large private high school in Kansas City. He was also a consultant providing training and support for a competitor of Infinite Campus.

Steve Bohlender
Executive Vice President
Computer Information Concepts

Steve works with districts to develop their database and application software requirements, creating the "vision" of what these systems should be for the district. A CPA and former district auditor prior to joining CIC, Steve has helped CIC grow from a company of seven serving Colorado and Wyoming to a present size of 45 employees serving 30 states (nine for Infinite Campus).

Steve's responsibilities include management of programming and customer service departments, financial director, and sales/marketing activities to districts across the country. He also has served as the project lead for implementing large administrative information systems in several districts. Steve earned his bachelor's degree in accounting from the University of Colorado, Boulder.

Barry Brahier, Ph.D.
Learning Experiences Designer
Infinite Campus

Barry's career spans the worlds of K12 education and technology. A classroom teacher for 17 years, he earned his Ph.D. in learning technologies from the University of Minnesota in 2006.

After completing his degree, Barry joined Infinite Campus as the senior product manager for curriculum and assessment. He is now responsible for Interchange curriculum. Prior to joining Infinite Campus, Barry consulted on technology issues for school districts and software companies in the U.S. and Canada.

Carley Moberg
Peopleware Coordinator
Computer Information Concepts

Carley's experience includes seven years in education as a school-to-career coordinator and technical instructional resource contact in Kansas schools. She was an Infinite Campus user for more than two years and was responsible for the staff development training of teachers and staff. Carley's experience using Campus as a teacher gives her added insight into the challenges of implementing and establishing a student management system.

At CIC, Carley is a Campus certified trainer and is responsible for implementing, training, and providing Campus Support for small, medium and large districts in multiple states. She is also works as a liaison to Campus product management for Kansas State Reporting requirements.

Carley earned a BBA from Southwestern College in Winfield, Kansas and completed graduate courses at Wichita State University while pursuing a graduate certificate in educational technology.

Mark Richardson

Client Executive

Computer Information Concepts

Mark has worked in the K-12 educational software industry for more than 10 years. He has expertise with student information systems, online assessment, e-learning and data analysis systems. Mark is responsible for Infinite Campus post implementation management, customer relations and on-going client satisfaction for more than 30 mid-large sized school districts (approximately 540,000 students) in Colorado, Nebraska, Kansas and Missouri. Prior to joining CIC, Mark was a senior account executive with Pearson School Systems responsible for sales of SASI, CIMS, Pearson Inform and Benchmark.

Mark is Infinite Campus certified. He earned his bachelor's degree in environmental design from the University of Colorado, Boulder.

Melissa Shields

Education Peopleware Supervisor

Computer Information Concepts

Melissa and her team manage customer support, implementation and training services for all CIC Infinite Campus customers, as well as hardware and software implementations for school district customers.

With more than eight years of experience with CIC, Melissa has successfully implemented a variety of applications including student information systems, teacher grade book applications, curriculum management and assessment applications, and data analysis/reporting applications in over 50 school districts in multiple states. Melissa also developed most of CIC's implementation planning documents, tools and processes for Infinite Campus, as well as other student information systems and related tools.

Melissa is Infinite Campus certified. She earned her bachelor of science in secondary education with an English concentration from Indiana University.

Nick Spehart

Student/Instruction Sales Manager

Computer Information Concepts

Nick has over 25 years of sales and consulting experience, with an emphasis in curriculum and assessment, data analysis, and student management systems. Nick is responsible for the CIC territory of Iowa, Kansas, Missouri, and most recently Illinois. Formerly he was an assessment consultant with CTB McGraw-Hill and a senior sales consultant for NCS (now Pearson School Systems) and PowerSchool (while an Apple, Inc. company). He was also a high school social studies and language arts teacher.
