

Charlie Kratsch
Founder and CEO
Infinite Campus

Charlie began his professional career during high school by working for the Minnesota Educational Computing Consortium (MECC) where he developed software and configured computer labs for local school districts. Upon graduation, he vowed never to set foot in another school and bypassed college to become a technology entrepreneur. He founded and sold several companies that developed information systems for the healthcare and telecommunications industries.

Ironically, after a brief retirement, his stepfather, a school principal, challenged him to use his knowledge and experience to help education. Rising to the challenge, Charlie founded Infinite Campus in 1993, while serving as a district technology director in order to learn about education "from the inside." As a result, he has spent the better part of the last sixteen years in schools all over the country and has developed a thorough understanding of how schools work and interrelate.

Stephanie Bach
Client Executive
Infinite Campus

Prior to coming to Infinite Campus, Stephanie spent 10 years in management for the health insurance and retail industry. She joined Infinite Campus in December 2006 as a business/product analyst working on the Campus State Edition, Montana Edition and federal reporting. In August 2008, she took a new job as Campus State Edition client executive for S.D. and Mont.

Stephanie has an M.B.A. from the University of Mary, Bismarck N.D.

Barry Brahier, Ph.D.
Learning Experiences Designer
Infinite Campus

Barry's career spans the worlds of K12 education and technology. A classroom teacher for 17 years, he earned his Ph.D. in learning technologies from the University of Minnesota in 2006.

After completing his degree, Barry joined Infinite Campus as the senior product manager for curriculum and assessment. He is now responsible for Interchange curriculum. Prior to joining Infinite Campus, Barry consulted on technology issues for school districts and software companies in the U.S. and Canada.

Carrie DeLaitch
Training Specialist

Carrie received a bachelor's degree from the University of Wisconsin-Stout. She is K-12 certified in marketing and business education. Prior to coming to Infinite Campus she was a high school teacher.

Mike Frankenberg
Mac Support Specialist
Infinite Campus

With a background in graphics, Mike spent many years as an entrepreneur and freelance Macintosh consultant. Infinite Campus is his debut into the corporate world, where he is affectionately known as the "Mac Guy." A founding member of the Geek Squad, Mike holds an Apple certification in OSX and Help Desk. He was voted Best Mac Support in the Twin Cities twice by the City Pages publication. He works diligently to bring the respect the Mac platform deserves.

Rob Ginther
Support Team Lead
Infinite Campus

While working nights at the Federal Reserve Bank of Minneapolis, Rob attended classes at KRS Computer and Business School, receiving the Network Support Specialist/A+ Certification. He moved into the bank's customer support group, troubleshooting electronic access problems, diagnosing and resolving issues and helping customers navigate through web and DOS applications.

Rob ended his more than eight years at the Federal Reserve Bank and joined the Campus Technical Support Group in 2005. He is currently the support team lead for S.D. and Mont. (Big Sky Team).

Steve Hallman
Process Consultant

Steve joined Infinite Campus as a training specialist and recently accepted the newly created role as process consultant. He provides customized assistance to districts to help them fully use advanced features of the product, adapt workflow practice analysis, create gap analysis reports, as well as provide technical consulting to Campus Customers.

Bonnie Linder
Manager, Training

Bonnie has been with Infinite Campus since 2006. She comes with a varied career in technology and services, including working as a programmer at Ecolab, and a system analyst at Burlington Northern Railroad, where she was the only programmer in the state of Minnesota who knew the first language used on a Xerox PC, CUSP (one of the first personal computers developed). While she was a stay-home Mom, Bonnie developed a software program, kiosk for self-storage facilities, for which she received a U.S. Patent.

Sara Loewen
Data Resource Administrator, AIM Unit Manager
Office of Public Instruction

Bio coming soon.

Jason Miller
Custom Development Supervisor
Infinite Campus

After high school, Jason enlisted in the U.S. Navy where he served aboard the U.S.S. Samuel Eliot Morison; a guided missile frigate home ported in Mayport, Fla. Jason then transferred to the Naval and Marine Corps Reserve Center in Tucson, Ariz., where he coordinated training for the southern Arizona naval reserve.

In 1999, after nearly seven years of serving his country, Jason returned home to Minnesota and began his education in technology. In January 2003 he joined Infinite Campus. Jason has assisted in the implementation of Infinite Campus in 20 states. Jason's team helps districts with custom reporting and data analysis through building data extracts and reports for educators and parents.

Amanda Spilde
Training Specialist

Amanda received her bachelor's degree from the University of Minnesota-Duluth and is certified in secondary social studies education. Before joining Infinite Campus, she was a middle school social studies teacher.

Nicole Weissman
Student Records Manager
Office of Public Instruction
