### **Infinite Campus Announces New Michigan Channel Partner**

Feb. 28, 2006 Arden Hills, Minn., - Infinite Campus, Inc. of Arden Hills, Minn. is pleased to announce a new channel partnership with Optimal Solutions, Inc. Optimal Solutions is a software and hardware systems design, development and engineering firm focused on K-12 education based in Grandville, Mich.

Optimal Solutions is responsible for representing Infinite Campus to K-12 schools, districts and regional consortia in Michigan.

“We are pleased to announce this new partnership with Optimal Solutions,” says Joe Fox, director of sales for Infinite Campus. “Their 12 years of expertise reselling student information systems along with their value added services will give Infinite Campus customers the satisfaction expected from their Infinite Campus investment.”

Optimal Solutions is also the developer of SchoolFinance2K and eVideon, as well as the provider of tier one networking and surveillance software and hardware solutions including 3Com, Cisco, Compaq/HP, Foundry Networks, Microsoft and Novell, among others.

“Infinite Campus is a product that schools and districts have been waiting for in Michigan,” says Mike Palmer, vice president of software solutions for Optimal Solutions. “We are looking forward to representing Infinite Campus and providing our customers with this visionary education process management software along with our expertise to give our customers optimal satisfaction.”

The partnership was effective Feb. 1, 2006.

#### **About Optimal Solutions**

Optimal Solutions was formed in 1993 with the mission of supplying network integration services and support, school finance and student administration services and custom programming for K-12 schools. Optimal takes pride in maintaining highly qualified and knowledgeable staff that provide superior service and support for its clients and feel strongly about improving the use of technology in schools.
