## **Save the Date: Infinite Campus to Celebrate Grand Opening of National Headquarters**

July 15, 2008 – Arden Hills, Minn., – Infinite Campus, Inc. will celebrate the opening of its National Headquarters (a.k.a. mothership) in Blaine, Minn. on Saturday, Sept. 13, 2008 from 11 a.m.-3 p.m. The \$20 million, 110, 000 sq. ft. building and future expansion plans will accommodate more than 400 employees.

“Our National Headquarters is a result of the tremendous customer growth we’ve experienced,” said Charlie Kratsch, Infinite Campus Founder and CEO. “The building reflects our culture of creativity and innovation in providing data management solutions for K12 education. It will also be a destination for educators to learn about the product and how it supports administrators, teachers, parents and students.”

Tom Ryan, mayor of Blaine and Tom Snell, director of the MetroNorth Chamber of Commerce, as well as other community leaders will be present at the ribbon cutting.

The Centennial Marching Band will kick off the festivities for the Grand Opening, followed by the official ribbon cutting. Then the community is invited to join Infinite Campus for an afternoon of family-friendly activities, including carnival games, food, and building tours.

The building is surrounded by an eco-friendly landscape and nestled on the edge of Lochness Lake and Park. The unique architecture and design includes a two-story rotunda, water features filled with Koi fish, footbridges, trees, and a 36 foot climbing wall.

Infinite Campus is the largest American-owned student information system (SIS) for K12 education, serving more than 4 million students in 42 states. For more than a decade, it has provided districts, regional consortia, state, and the federal government with an integrated, web-based SIS so educators, parents, and students have access to information that can ultimately improve student achievement.
