### **Silver Valley USD Selects Infinite Campus to Streamline Processes and Improve Parent Communication**

March 12, 2009 – Blaine, MN – Silver Valley Unified School District announced that it has selected Infinite Campus® as its district-wide student information system (SIS).

Silver Valley USD wanted a web-based, centralized student management system that was intuitive and easy for all stakeholders to use. It wanted to reduce time managing the SIS, reduce complexity in entering and maintaining student data, and improve the accuracy of student data.

Silver Valley USD had been evaluating all SIS available in California for well over a year before deciding on Infinite Campus. They had a very thorough selection process.

“Infinite Campus met all our criteria,” said Jason Buchanan, Silver Valley USD Director of Technology Services. “It provides a complete solution for both data management and hosting. We don’t need to purchase or manage any other hardware or software. Anyone considering changing their SIS should strongly consider Infinite Campus.”

Infinite Campus has proven success with more than 1,600 districts nationwide and a solid presence in California. It has a 14-year history of implementation success for districts of all sizes.

“We also wanted to improve parental access to their student’s data. The integrated nature of Infinite Campus will encourage more parents to participate with the school in guiding student learning,” said Buchanan. The Campus Portal provides secure, real-time access to district information, student assignments, grades, attendance and more, that can be accessed anywhere, at any time.

“Silver Valley USD sees the many advantages of Infinite Campus,” said Ashton Faires, Infinite Campus Western Regional Sales Manager. “The single data-entry census design will save time and ensure improved data accuracy. We are pleased they are joining the growing community of Infinite Campus customers.”

Serving 2,500 students, Silver Valley USD plans to go live July 2009.

#### **About Silver Valley Unified School District**

Silver Valley USD is located in the high desert of Southern California, between Los Angeles and Las Vegas. The district covers an area of approximately 3,600 square miles, equivalent in size to the combined states of Rhode Island and Delaware, and provides educational services to the

communities of Calico, Daggett, Fort Irwin, Ludlow, Newberry Springs, and Yermo.
