Infinite Campus Partners with Vanco Services for Payment Processing

Jan. 20, 2010 – Blaine, Minn. – Infinite Campus, Inc. is pleased to announce a strategic alliance with Vanco Services, LLC (Vanco) to provide electronic payment processing for Campus Online Payments. Vanco is a PCI (Payment Card Industry) Level 1 Compliant Service Provider offering secure and reliable processing for both recurring and one-time transactions.

“This partnership will give Campus Customers convenient online access to process district fees,” stated Dan Orlando, Infinite Campus Manager of Strategic Alliances. “With this alliance our customers can rely on an integrated, secure method to receive electronic payments.”

A visionary IT system has earned Vanco the respect and cooperation of several of the nation’s largest financial institutions and financial services companies. Vanco payment processing will give Infinite Campus districts the ability to process payment cards from Visa, MasterCard, American Express, and Discover and also to process payments as direct debits from a checking or savings account.

“We are delighted to provide our secure payment processing in this important alliance with Infinite Campus,” said Casey O’Keefe, vice president of marketing and new product development, Vanco Services. “The behind-the-scenes integration between our two companies is what will produce a seamless and efficient online payment experience for customers.”

Payments made online will be integrated with Infinite Campus system data eliminating data uploads with a third-party online system providing real-time transactions. Campus Customers will benefit from eliminating the handling of cash and checks, gain efficiencies in the front office, and eliminate lost checks.

This new feature is integrated with Campus Fees and Campus Food Service. Districts currently using third-party food service, fees, library, transportation or any fee generating module can also take advantage of this new feature.

“The Campus Finance/Human Resources team is excited to deliver Campus Online Payments,” said Burke Stucker Campus Finance/Human Resources Business Unit Manager. “With this new functionality, parents and guardians will be able to make payments online for one child or the entire household through an intuitive user interface within the Campus Portal. This will eliminate lost checks, detailing transactional information, and providing payment history.”

Campus Online Payments will be available summer 2010.
