

Efficient Meal Application Processing

Campus Free and Reduced Application Management (FRAM) is now part of the core Infinite Campus system. Use FRAM to process applications, with immediate results, to give students a free, reduced or paid meal all in the same day, while ensuring data confidentiality in the lunchroom.

The FRAM process can be completed in just minutes from the time the application is reviewed, processed, accepted and the student eats.

Integrated Solution

Leverage the integration and data managed within Infinite Campus™ to process and approve or deny free and reduced lunch applications.

- Use Campus Census information to effectively process the application
- Update a student’s state reporting meal status setting through an easy-to-use wizard
- Improve overall data integrity when using built-in wizards

Key Features

- Upload direct certification files via an import wizard to associate eligibility to each student
- Review and update processed applications via the Household Application tool
- Generate batch FRAM approval and denial letters
- Conduct and report annual federal verification of applications
- Take advantage of federal income guidelines managed by Infinite Campus

Streamline processes and reduce manual data entry when administering free and reduced applications with Campus FRAM. Learn more by contacting your Infinite Campus representative today.
