

FOR IMMEDIATE RELEASE

Mangum Public Schools, Oklahoma, Select Infinite Campus

May 1, 2017 – Blaine, Minn. – Infinite Campus was selected by Mangum Public Schools (MPS) for its student information system (SIS). Infinite Campus will enable the district to better manage its student data with a scalable, integrated SIS with more core functionality than any other system.

The district's legacy SIS was lagging in speed and limited in reporting options. Mary Jane Scott, Assistant Superintendent, said when the district decided to upgrade, they did their due diligence. "We researched vendors across the state of Oklahoma, and even visited a large school nearby that uses Campus."

After thoroughly researching their options, MPS selected Infinite Campus for the system's ease of use. And with more than 200 in-house developers, Campus customers receive free enhancements and continuous innovation throughout the year.

"Another reason we chose Campus was the wide range of options for pulling reports," said Scott. With Campus, the district can use the ad hoc reporting tools to create and share custom reports and package their results in a variety of formats.

MPS also purchased Data Health Check, which detects errors and improves data accuracy, and Food Service, which streamlines cafeteria operations. These Campus Premium Products work seamlessly with Campus SIS so MPS can eliminate third-party systems.

The district is scheduled to go live in July 2017.

About Mangum Public Schools

Mangum Public Schools is comprised of four schools located in southwest Oklahoma. The schools serve approximately 750 students. www.mangum.k12.ok.us
