

Infinite Campus Selects eDoctrina as its 10th Digital Learning Partner

September 5, 2018 – Blaine, Minn. – Infinite Campus, the most trusted name in student information, is excited to announce eDoctrina, a New York-based education management software system, as a Digital Learning Partner. Infinite Campus student information system (SIS) customers will have a connection between the eDoctrina system and the Campus Grade Book for real-time assignment score passback.

eDoctrina is a multi-purpose curriculum, assessment and accountability suite of software solutions used by hundreds of schools throughout the U.S. As teachers use the eDoctrina platform to share assessments, those scores will be reflected in their Campus Grade Book and eDoctrina's grade book.

Both Infinite Campus and eDoctrina are IMS Global Certified and meet their OneRoster standard for securely sharing class rosters, assignment data and scores between systems.

"This powerful partnership will be beneficial for our customers," said Charlie Kratsch, Infinite Campus CEO and Founder. "Campus was the first SIS to be OneRoster v1.1 Grading Services API certified, so it's important that we partner with technology providers who recognize the significance of the IMS Global certification."

"This partnership will save teachers time and reduce errors," said Dr. Barry Brahier, Product Manager for Teaching and Learning at Infinite Campus. "By integrating with eDoctrina, we are ensuring teachers spend more time teaching, which furthers our mission of Transforming K12 Education®."

"I am so excited about this partnership because the end result is we are saving teachers time so they can focus more on instructional practices," said Eon Verrall, President of eDoctrina. "Instead of manually typing grades from eDoctrina assessments into their Infinite Campus grade book, teachers will simply click a few buttons and 'presto' the scores will be in their Campus Grade Book."

Infinite Campus and eDoctrina will be piloting the integration with select districts during the fall of 2018 with release to all customer districts planned for 2019. eDoctrina joins nine other Infinite Campus Digital Learning Partners: Illuminate Education, itslearning, Kiddom, Kimono, Microsoft, Naiku, Otus, Schoology and turnitin.

Infinite Campus customers include school districts, regional consortia, state departments of education and the federal government. www.infinitecampus.com

About eDoctrina

The eDoctrina Corporation was established in 2005 by teachers in Buffalo, NY, in response to a need for better educational assessment software. Today, what began as a simple database, has grown into a multi-purpose educational software product that is being used by schools and school districts throughout the U.S. <https://www.edoctrina.org/>
