

Campus National Credentialing Program

Receive Recognition For Your Skills

Validate your level of expertise and knowledge of Infinite Campus by earning your credential as a Campus Certified Administrator. You'll add value to your job as a credential holder in your own district. These nationally recognized standards establish credibility when working with other Campus districts. Our exemplary credentialing program involves high quality assessments and assessment processes for expert Campus users.

Certification as a Campus Certified Administrator adds merit to your qualifications in a tight job market.

Benefits

- Improve overall efficiency and performance.
- Develop in-district resources for staff development.
- Validate a recognized level of expertise and knowledge.
- Earn recognition on the Campus Community as a credentialed user.
- Update credential at no cost by following defined Campus requirements.
- Keep current with changes in Campus functionality. A free practice test is available without committing to the official test.

Details

- Earned credentials do not expire and can be kept current via participation in the free update program.
- Use the list of standards and skills in the Candidate Guides to prepare for assessments at your own pace.
- Get information on skills being assessed (e.g. Campus Community, Campus Training, Webinars, ICU, on-the-job experience, etc.).

"My first thought when reading about it was I would finally have the opportunity to prove that I do know what I am talking about."

*Andrea Schremp
Wright City School District Technology Director
Wright City, Missouri*

Save district resources while getting recognized for your skills through the Campus National Credentialing program.
