Win a YETI

It's as easy as 1...2...3:

- 1 Grab your Lineup Card in your swag bag.
- 2 Visit each station to collect stamps.
- 3 Submit your card.

Drop the completed card in the YETI cooler by the registration table. We will draw one name at the State Reporting Updates & Closing Remarks session. Must be present to win!

Oh Snap!

Help us capture this special event. Visit our photo booth.

Grab a friend. Grab a prop. Strike a pose.

Day 1 | Monday, February 26

11:00 am-12:20 pm

Registration

Check in at the registration table.

12:20-1:20 pm

FY24 Data Collections Mid-year Updates

Room: Grand Hall 1-2

We will review the data collection changes for FY24. We will review the process of locating Child Find students as well as identifying students who are eligible for an alternate diploma. CHW Certification will be covered and its impact on the Student Class data. Lastly, the reporting changes of nurses in CPI will be discussed.

Campus Data: Ad Hoc & Data Viewer

Room: Grand Hall 3-4

This session will cover how to start and use basic reporting knowledge using Filter designer and Data viewer. Getting a basic understanding of how the tools work like they do. And comparison of when to use the different tool.

Planning Makes Perfect Grading Setup

Room: Grand Hall 5

Let's get the right score on the score board. Is your grading already set up, but not sure it is at its best to get the score you need for students? We will pitch the best setup for all leagues of schools and how to maintain setup. Why is it best to have a game plan before school starts and not make changes between innings?

K-12 Custom Products: What We Have to Make Life Easier (KCP)

Room: Parthenon 1

Join us to learn more about K12SG's fully integrated custom products that will allow your district to streamline operations and make your life easier. We will show a high-level overview of our custom products such as ETCH, CheckMate, SWARM, 504 Module, GEM, and Spotlight.

Translating Report Cards & Transcripts: Campus Report Translation Module (CPP)

Room: Parthenon 2

Need to print report cards and transcripts in a parent's language of preference? Campus has a tool, Custom Reports, which allows you to design a more customized report card or transcript. These print in the preferred language of your families. See how this premium product can streamline this printing process for your district.

Day 1 | Monday, February 26

Utilizing Online Registration for Annual Census Updates

Room: Olympia 1

Updating existing student information used to be the cause of many a headache, but with OLR, it's a cinch! In this session, we'll explore how parents can use OLR from their portal accounts to let you know when something changes...and how minor changes need not be individually approved by staff (unless you want them to). For both OLR Standard and OLR Prime customers.

Beginning & End of Year Processes & Reminders (12:20-2:30 pm)

Room: Olympia 2

Performing beginning and end-of-year processes is important and having a checklist provides information on certain activities that need to be performed within Infinite Campus at the end of the school year, and includes items that can be done to aid in the beginning of the next school year. This session will cover the checklist and demonstrate each process.

.....
1:30-2:30 pm

What's New in Scheduling

Room: Grand Hall 1-2

Check out what is new and improved in the Scheduling world. Walk away with some tips to help streamline your scheduling processes.

Campus Data: Ad Hoc Logical Expressions & Functions

Room: Grand Hall 3-4

This session takes an in-depth look at how to create custom functions within the Query Wizard. Note: Basic understanding of the Filter Designer required. For the beginner Filter Designer course, take Filter Designer: Introduction to Ad Hoc Reporting.

Optimiz-Ed: Georgia's PK-12 Educational Data Professional Certification Course

Room: Grand Hall 5

Do you struggle to provide training for your office staff? Our self-paced, online program will teach your school and district office staff about complex data reporting requirements, about compliance with state and federal mandates, and about key state and federal policies that are critical to accurate processing of student enrollments and withdrawals. Fifteen content-rich modules culminate in a final project that requires participants to research local policies and procedures on a range of topics. Come learn how our online professional development can lead to improved data quality and increased funding!

CheckMate: Manage Attendance + More (KCP)

Room: Parthenon 1

Learn how your district can save your attendance clerks valuable time with CheckMate! CheckMate is a fully integrated, automated attendance kiosk that records attendance directly into Infinite Campus. We invite current and interested users of CheckMate to learn more about the product, take away some new tips and tricks, and learn how CheckMate can benefit your school or district.

Got Questions about Grading? Drop-In Coffee Shop

Room: Parthenon 2

Grab a cup of coffee and bring your grading questions to our team. If you are changing grading, just starting to discuss it, or want to ensure it is all in line, the team can answer your questions to get you started. They can also share how you can utilize several tools in Campus to keep that grading set up in tip-top shape all year. NOW is the time to ask, not in August!

Online Registration: Tips & Tricks

Room: Olympia 1

Looking for a way to reign in all those dubious addresses parents add to applications? Thinking about having nurses approve health conditions after registrars approve the rest of the app so that health conditions post directly to Campus Health? Hoping to quickly create a long list in the OLR lists bank using a list that already exists in Campus? This session is for you! Come find out all about the functions available in OLR that you may not know you have! This session is both for districts already using Prime and those that are Prime-curious.

.....
2:40-3:40 pm

Academic Planner: Steps for Setting Up & Maintaining

Room: Grand Hall 1-2

Learn the different pieces of the Campus puzzle needed to setup Academic Plans and what is required for maintaining when courses or requirements change.

Ad Hoc for Beginners

Room: Grand Hall 3-4

This session is designed for new Ad Hoc users. Let's take the fear out of this function and have some fun learning the ropes and getting more comfortable. You will learn how to create, run, copy, share and use Ad Hoc reports in several ways. Come join the fun!

What is Ed-Fi?

Room: Grand Hall 5

This session will be an overview of Ed-Fi. Topics such as: Review of the Data Model and how Dependencies work in relation to Natural Keys, understanding of how some data elements are required vs. conditional, how to load and sync data, and more.

ETCH: Maintain Healthy Data & Track Errors (KCP)

Room: Parthenon 1

ETCH is a fully integrated Error Tracking, Checking, & Handling system that makes state reporting a BREEZE. We invite current users of ETCH to learn more about it, ask questions, and hopefully walk away with some new information. We also invite interested users to learn what ETCH is all about, and network with current users to see how ETCH can benefit your district.

Day 1 | Monday, February 26

Are You Utilizing All the Features of the Grading Window?

Room: Parthenon 2

Come to this session to see what features the Grading Window has that you may not be using!

Set Up & Customizing Online Registration

Room: Olympia 1

We'll get ready for the new registration year during this session, first with a discussion about OLR configurations, what they are, and how they can help keep your district organized. Then we'll get creative by adding questions to your application! How can you make a question conditional? Is there a way to post your custom question to Campus? And what's the downstream benefit of doing that? This session is for districts already using Prime and also those that are Prime-curious.

Custom Backpack and DataViz Demo (Tableau)

Room: Olympia 2

This session is intended for current CustomTech DataViz users, but all are welcome to experience how this dynamic groups interacts and helps each other to advance their use of custom dashboards. It will include updates on the product, a mini-training/how-to session, group discussion and any other topics the group decides to tackle.

.....
3:40-4:00 pm

Snack Break

.....
4:00-5:00 pm

Updates on the NEW State Reporting System (Ed-Fi)

Room: Grand Hall 1-2

We will discuss project timelines, vendor/pilot status, and Level 1 validations! Wait...what's that...let's talk about it!

Managing Assessment Imports & Workflows

Room: Grand Hall 3-4

This session will cover the new Assessment Center tool. Attendees will learn how to create the structure for a test within Infinite Campus, explore how to associate tests to courses to allow teachers to enter scores, and discuss how to manually add test scores for individual students.

Ed-Fi Tools & State Reporting

Room: Grand Hall 5

In this session, topics will include: a review of Resync, Event Queue, Event Queue Statistics, Error Log, Delete Tool, Identity Mapping report. We will also give an overview of Training/Documentation in Campus Community.

Day 1 | Monday, February 26

MARS: Managing At Risk Students (KCP)

Room: Parthenon 1

Join us to learn more about MARS (Managing At Risk Students) – a feature that comes with the K12SG custom product ETCH. Ask questions, network with other users, and learn some new strategies to use this feature to best benefit your district.

Utilizing Academic Planner with Scheduling

Room: Parthenon 2

You have your Graduation Plans set, but why did you do all the work? See how you can use the tools in the Graduation Plan for next year’s scheduling.

Premium Products and Suites Roundtable

Room: Olympia 1

If you currently support one of the Campus premium products or suites and have questions, join us! We also invite those who are interested in one of these products and want to learn more!

Attendance Tools for Beginners

Room: Olympia 2

The Attendance module contains all tools necessary to properly enter student attendance information, maintain historical attendance records and generate reports and letters related to student attendance. In this session, we will cover Attendance setup, the Campus tools available to enter and maintain attendance and the various available reports.

.....
5:00 pm

Happy Hour in Conference Atrium

Day 2 | Tuesday, February 27

7:30-8:00 am

Registration

Check in at the registration table.

8:00-9:00 am

Beginning & End of Year Processes & Reminders (8:00-10:10 am)

Room: Grand Hall 1-2

Performing beginning and end-of-year processes is important and having a checklist provides information on certain activities that need to be performed within Infinite Campus at the end of the school year, and includes items that can be done to aid in the beginning of the next school year. This session will cover the checklist and demonstrate each process.

Optimiz-Ed: Georgia's PK-12 Educational Data Professional Certification Course

Room: Grand Hall 3-4

Do you struggle to provide training for your office staff? Our self-paced, online program will teach your school and district office staff about complex data reporting requirements, about compliance with state and federal mandates, and about key state and federal policies that are critical to accurate processing of student enrollments and withdrawals. Fifteen content-rich modules culminate in a final project that requires participants to research local policies and procedures on a range of topics. Come learn how our online professional development can lead to improved data quality and increased funding!

Cross-Site Enrollment - Sharing Students & Resources

Room: Grand Hall 5

Infinite Campus has been working on something called Cross Site Enrollment for the past 8 months which will help every district out that has students taking classes in multiple schools or across districts. This new functionality planned to be available this summer will help provide transparency around scheduling, grading, and attendance for all enrollments a student may have.

SWARM: Social Worker Tracking & Workflow (KCP)

Room: Parthenon 1

SWARM is a fully integrated Social Worker Activity & Referral Module designed to make Social Workers' jobs easier. We invite current users to refresh their knowledge on SWARM and ask any questions they may have. We also invite interested users to get a better idea of how SWARM works, network with current users, and see what SWARM can do for you and your district.

Day 2 | Tuesday, February 27

Custom Forms: Tips and Tricks

Room: Parthenon 2

Custom Forms are a great way to communicate with teachers, students and parents via documents. These documents can be read-only, interactive or require eSignature. This session will provide step-by-step instructions from start to finish while sharing tips and tricks and lessons learned that will save you time and headache.

CustomTech DataViz - User Group/Roundtable Discussion (Tableau) (8:00-10:10 am)

Room: Olympia 1

This session is intended for current CustomTech DataViz users, but all are welcome to experience how this dynamic groups interacts and helps each other to advance their use of custom dashboards. It will include updates on the product, a mini-training/how-to session, group discussion and any other topics the group decides to tackle.

A Day in the Life of a Teacher

Room: Olympia 2

Learn about the functionality of Infinite Campus from a teacher’s perspective, including but not limited to topics within Instruction, student information, and communication.

.....
9:10-10:10 am

FY24 Data Collections Mid-year Updates

Room: Grand Hall 3-4

We will review the data collection changes for FY24. We will review the process of locating Child Find students as well as identifying students who are eligible for an alternate diploma. CHW Certification will be covered and its impact on the Student Class data. Lastly, the reporting changes of nurses in CPI will be discussed.

Pronoun and Gender Preferences in Campus

Room: Grand Hall 5

Learn about new tools in Infinite Campus to help protect students’ identities.

504: Tracking and Reporting (KCP)

Room: Parthenon 1

504 is an all-in-one, fully integrated tool designed to make 504 information tracking and managing easier. We invite current and interested users to learn more about 504 and get an idea of how 504 can benefit your school or district.

MARS: Managing At Risk Students (KCP)

Room: Parthenon 2

Join us to learn more about MARS (Managing At Risk Students) – a feature that comes with the K12SG custom product ETCH. Ask questions, network with other users, and learn some new strategies to use this feature to best benefit your district.

Day 2 | Tuesday, February 27

New to Campus? Basics to Survive as a New User

Room: Olympia 2

The real way to survive the game is to be equipped. In this session walk away with a game plan to conquer day in and day out challenges like a team player. From the basic functionality of Campus to tricks that will make your daily tasks a lot easier.

10:20-11:20 am

Online Registration: Best Practices for OLR Application Processing

Room: Grand Hall 1-2

Whether your district has a central registration office or school-based registration, OLR can help! In this session, we'll discuss organizational tools and processes that can help your district become a streamlined enrollment machine, with an emphasis on staff processing, document uploads, and statuses. For OLR Standard as well as OLR Prime customers.

Profile Manager - Who needs Access to the Application?

Room: Grand Hall 3-4

We will explore the Profile Manager tool and how it operates with your Student Information System. A detailed review of each application will be discussed to ensure proper access has been granted to the appropriate personnel.

Ed-Fi Error Handling

Room: Grand Hall 5

This session will include a review of common errors and best practices for resolving errors. Review when a resync is necessary vs. data correction.

K12SG Custom Dev: See What's New....MTSS, School Choice, TRAC, Discipline + More (KCP)

Room: Parthenon 1

Come and see what's new and coming soon in the K12SG Custom Development world! Learn about our progress with tools like MTSS, School Choice, TRAC, and more.

Campus Schema & SQL 101

Room: Parthenon 2

We will be exploring the new Infinite Campus interactive schema diagrams in Campus Community and learning the basics of constructing SQL queries to use with an Infinite Campus database. No prior SQL experience is needed but having some experience with ad hoc filters would be helpful.

Accessing Your Academic Planner with Tableau

Room: Olympia 1

See how you can build dashboards to aggregate data tracked in Infinite Campus' Academic Planner. This will get everyone a bit closer to the elusive Graduation Tracker.

Day 2 | Tuesday, February 27

Elementary School Scheduling: Easy as 1, 2, 3

Room: Olympia 2

1, 2, 3 is how easy it can be! Learn some tricks and tips to make your elementary scheduling easy. Join us in this session where we will show you the best practices of scheduling prep and completion. Enjoy your summer vacation and have scheduling completed before you make those plans.

11:20 am-12:45 pm

Lunch/Keynote

12:50-1:50 pm

Online Registration: Notifications and Document Management

Room: Grand Hall 1-2

Interested in taking OLR to the next level? Then notifications are for you! From alerting 504 staff when the 504 question is answered affirmatively to simply letting your registrars know when a new application has been submitted, we'll explore creative ways to use the notifications tool within OLR. This session is for both districts already using Prime and those that are Prime-curious.

Updates on the NEW State Reporting System (Ed-Fi)

Room: Grand Hall 3-4

We will discuss project timelines, vendor/pilot status, and Level 1 validations! Wait...what's that...let's talk about it!

Coffee Shop with the Gurus: Campus Problems & Solutions

Room: Grand Hall 5

Do you have a question or problem and want to network with other users? This is the right session! Bring your problems to the "Gurus" and let us help you find an answer or a solution!

CheckMate: Manage Attendance + More (KCP)

Room: Parthenon 1

Learn how your district can save your attendance clerks valuable time with CheckMate! CheckMate is a fully integrated, automated attendance kiosk that records attendance directly into Infinite Campus. We invite current and interested users of CheckMate to learn more about the product, take away some new tips and tricks, and learn how CheckMate can benefit your school or district.

Utilizing Ad Hocs Throughout Campus

Room: Parthenon 2

Explore how to use ad hoc filters you create in Filter Designer in various other Infinite Campus modules. This will be a short overview of Ad Hoc options followed by examples of how to use various filters within provided Infinite Campus reports. Whether you need labels or lists or to track your athletic and extracurricular groups eligibility requirements, we will cover tips and tools to make life a bit easier. TIP: if you are a beginner, attend the Ad Hoc for Beginner session before attending this one!

Day 2 | Tuesday, February 27

CRDC Roundtable

Room: Olympia 1

Have questions, ideas, or just generally interested in learning more about CRDC? Join us for this roundtable and you are sure to walk away with some new and helpful information.

Middle and High School Scheduling for Everyone (12:50-3:00 pm)

Room: Olympia 2

Who and how do you build and maintain your middle and high school schedules. In this session become pros to keep your students' schedules correct. From the foundation of having a master schedule to, rostering students, walk-in scheduler, and roster batch edit. We will teach you in this session the best practices to have those schedules correct all year long.

.....
2:00-3:00 pm

Online Registration: Tips & Tricks

Room: Grand Hall 1-2

Looking for a way to reign in all those dubious addresses parents add to applications? Thinking about having nurses approve health conditions after registrars approve the rest of the app so that health conditions post directly to Campus Health? Hoping to quickly create a long list in the OLR lists bank using a list that already exists in Campus? This session is for you! Come find out all about the functions available in OLR that you may not know you have! This session is both for districts already using Prime and those that are Prime-curious.

Managing & Monitoring Behavior in Campus

Room: Grand Hall 3-4

In this session, we will cover the intended process, the Behavior set up and the importance of mapping event types and resolution types. We will also cover how to customize for your districts needs, while keeping the data correct for state reporting.

Infinite Campus Year in Review

Room: Grand Hall 5

A lot has changed in a year, much less the last 6 months. Take some time to review some of the great things you may have missed in Infinite Campus and the exciting new functionality currently in development.

GEM: Gifted Eligibility Management (KCP)

Room: Parthenon 1

GEM is a fully integrated Gifted Eligibility Manager designed to give your staff an all-in-one location to track and manage all gifted eligibility information. We invite current and interested users to learn about GEM and what it can do for your district.

Day 2 | Tuesday, February 27

Data Extract Utility: Utilizing Advanced SQL and Ad Hoc Queries

Room: Parthenon 2

This session will show you how to get started with an extract in the Data extract Utility tool. Note: must have admin rights.

Translating Infinite Campus with ZAB Translation Solutions

Room: Olympia 1

How important is it to communicate with your families in their native language? Does providing translated text really improve student academic performance? ZAB Translations has partnered with K-12 Solutions Group to show the importance. We will share ZAB's services and how translations can be utilized through various communication processes in Infinite Campus.

.....
3:00-3:30 pm

Break

.....
3:30-4:30 pm

Campus Online Payments, Activity Registration & School Store (CPP)

Room: Grand Hall 1-2

Campus Payments provides an easy-to-use payment processing solution for Food Service, Fees, School Store, Public Store and Activity Registration. The School Store gives members of your school easy online access for purchasing goods and services. Each school in your district can have their own school store. This session will demonstrate how to set up and use both Campus Payments and School Store.

Optimize your Infinite Campus SQL Queries

Room: Grand Hall 3-4

If you're an experienced SQL programmer working in the Infinite Campus database, learn about a tool and some techniques for writing efficient SQL queries and for optimizing those queries that weren't originally written with efficiency in mind. This session will get pretty geeky, which is not necessarily a bad thing!

The NEW Look and Customizing Campus

Room: Grand Hall 5

Change is hard, but with the most recent and upcoming enhancements to the new look of Infinite Campus we're reducing clicks and providing a more intuitive user experience. The most recent update includes the return of what were formally known as tabsets with the added benefit of no loss of vertical screen space. We'll discuss questions around How do I..., Where is the old..., Why did Infinite Campus..., When is Infinite Campus going to... questions that are important to you.

Day 2 | Tuesday, February 27

SpotLight: PBIS with Ease in Infinite Campus (KCP)

Room: Parthenon 1

SpotLight is a positive behavior intervention and support system that works directly within Infinite Campus. PBIS is a breeze with SpotLight. Current and interested users are welcome to join is to learn about all the great functions of this tool, ask questions, and network to see how SpotLight can benefit your district.

Ad Hoc for Beginners

Room: Parthenon 2

This session is designed for new Ad Hoc users. Let's take the fear out of this function and have some fun learning the ropes and getting more comfortable. You will learn how to create, run, copy, share and use Ad Hoc reports in several ways. Come join the fun!

Special Ed User Group & State Reporting Updates

Room: Olympia 1

We invite all districts who use Campus Special Ed to join us for a round-table discussion. We will discuss current Campus functionality, possible enhancements to present to Campus from the GA users and take a look a few 'newer' tools.

Responsive Scheduling 101

Room: Olympia 2

Do you have students going to other classes during a scheduled class? Need to know where they are, but not report them? Use Campus Responsive Scheduling to schedule kids in those innovative sessions. Learn how to setup these "Team" Rosters to spotlight your most creative game plans.

Day 3 | Wednesday, February 28

7:30 am-8:00 am

Registration

Check in at the registration table.

8:00-9:00 am

Managing & Monitoring Behavior in Campus

Room: Grand Hall 1-2

In this session, we will cover the intended process, the Behavior set up and the importance of mapping event types and resolution types. We will also cover how to customize for your district’s needs, while keeping the data correct for state reporting.

Online Registration Roundtable

Room: Grand Hall 3-4

In this session, we’ll take OLR questions, toss around ideas, and check with other districts to find out how they handle registration tasks in Campus. No question is too small if it has to do with OLR...so come brainstorm with us!

Coffee Shop with the Gurus: Campus Problems & Solutions

Room: Grand Hall 5

Do you have a question or problem and want to network with other users? This is the right session! Bring your problems to the “Gurus” and let us help you find an answer or a solution!

504: Tracking & Reporting (KCP)

Room: Parthenon 1

504 is an all-in-one, fully integrated tool designed to make 504 information tracking and managing easier. We invite current users to learn more about 504, and also interested users to get an idea of how 504 can benefit your school or district!

Food Service Users Roundtable

Room: Parthenon 2

Join Infinite Campus product experts along with other district staff to discuss ‘Campus Food Service’. Come with ideas, questions, or just to listen. This session will be a great time to network and collaborate with others.

Academic Planning for Elementary & Middle Schools

Room: Olympia 1

Even if you don’t use Academic Planning for your high schools, you can be using it for students in K-8. Forget hand scheduling, using the request wizard, or having to key in courses for all your students in Walk-In Scheduler - Academic Planning will make this work so much easier.

Day 3 | Wednesday, February 28

Preparing for End of Year Transcript Posting and Transcript Cleanup

Room: Olympia 2

The end-of-year processes provide information on certain activities that need to be performed within Infinite Campus at the end of the school year. Performing these steps will aid in closing out the current year and preparing for the next school year.

9:10-10:10 am

Infinite Campus Year in Review

Room: Grand Hall 1-2

A lot has changed in a year, much less in the last 6 months. Take some time to review some of the great things you may have missed in Infinite Campus and the exciting new functionality currently in development.

CPI Reporting Module (KCP)

Room: Grand Hall 3-4

In this session, we'll demo the CPI tool. If you're tired of hand-calculating staff percentage of time every October and March, join us and find out how the CPI tool allows users to manage and verify their CPI staff data directly in Infinite Campus, then download a ready-to-send text file required for DOE reporting.

Campus Security Roundtable

Room: Grand Hall 5

In this session, we will discuss the Campus security issues or questions you are facing. We will share best practices for keeping Campus secure.

SpotLight: PBIS with Ease in Infinite Campus (KCP)

Room: Parthenon 1

SpotLight is a positive behavior intervention and support system that works directly within Infinite Campus. PBIS is a breeze with SpotLight. Current and interested users are welcome to join us to learn about all the great functions of this tool, ask questions, and network to see how SpotLight can benefit your district.

Maximizing Online Payment Reports

Room: Parthenon 2

This session will highlight current payment functionality as well as how to perform bank reconciliation using the reports available in Campus Payments. Learn how to understand and use the reports as an effective tool as well as how to maintain accuracy in daily processes.

Scheduling Board 101

Room: Olympia 1

In this session, we will take a deep dive into the new and improved Scheduling Board. Learn tips & tricks to get the most out of your time using this tool.

Day 3 | Wednesday, February 28

Managing Census & Keeping a Clean House

Room: Olympia 2

Do you dread cleaning house? Let's tackle spring cleaning and get your census data cleaned up. Whether it's a new process or a tool you aren't using - in this session, learn techniques and get a better understanding of census data to get the ultimate results.

10:20 am-12:30 pm

Georgia State Reporting: Year End Updates - Closing Remarks

Room: Grand Hall 1-2/ Grand Hall 3-4

10:20-11:20 am

Messenger 2.0

Room: Grand Hall 5

Send your General, Priority, Emergency and Staff Messages all from one place: Messenger 2.0. In this session we will look at all the new features housed within our New Messenger tool: creating templates, managing recipients, and viewing scheduled and in-progress messages.

SWARM: Social Worker Tracking + Workflow (KCP)

Room: Parthenon 1

SWARM is a fully integrated Social Worker Activity & Referral Module designed to make Social Workers' jobs easier. We invite current users to refresh their knowledge on SWARM and ask any questions they may have. We also invite interested users to get a better idea of how SWARM works, network with current users, and see what SWARM can do for you and your district.

Campus Response to Intervention

Room: Olympia 1

Join us for this session as we break down the admin setup, learn to create plans, documents, forms, maintain RTI data and more. How to collect data and run reports.

Planning for Standards

Room: Olympia 2

Is your district using Standards or discussing them? Learn a few time-saving tips for managing Standards and the best setup methods to achieve the desired outcome.
