Shakopee Public Schools Selects Infinite Campus to Improve Efficiencies

Sept. 3, 2013 – Blaine, Minn. – Shakopee Public Schools, serving more than 7,600 students in Minnesota, selected Infinite Campus to replace TIES as its student information system (SIS). The system was chosen for its ease of use, award-winning support and cost savings. As the largest American-owned SIS Infinite Campus is the best solution to meet their needs.

“Our district was looking for an SIS that would save our teachers and district support staff time,” says Ty Willmsen, Shakopee Software Support Specialist. “We also wanted a system that could perform multiple functions. With Infinite Campus, we can eliminate several third-party systems and do more with less.”

“We are pleased Shakopee Public Schools selected Infinite Campus, and we welcome them to our growing family of customers in Minnesota,” says Charlie Kratsch, Infinite Campus Founder and CEO. “They will benefit from user-friendly technology, superior support and lowest total cost of ownership.”

With a 97 percent support satisfaction rating, Campus Support consistently receives the highest rankings from its customers. The award-winning support staff provides its valued customers with a centralized point-of-contact for responsive, personalized solutions and advice.

In addition an extensive online support option, the Campus Community, is free and available 24/7. Shakopee staff can find comprehensive product information, connect with other users, watch videos and manage support cases.

“The Campus Community is one of my favorite features of Infinite Campus,” explains Willmsen. “It’s been extremely helpful during our implementation process. In the Campus Forums, I can interact with other ‘real-life’ users to ask questions or share my knowledge.”

Shakopee Public Schools will use Infinite Campus starting the 2013-14 school year.

About Shakopee Public Schools
