Sacramento City Unified School District, California, Selects Infinite Campus for its Student Data Management

Feb. 27, 2014 – Blaine, Minn. – The Sacramento City Unified School District (SCUSD), located in California’s state capital of Sacramento, has selected Infinite Campus as their district-wide student information system (SIS). Serving nearly 48,000 students, SCUSD will now have the capability to ensure proper student record keeping that supports student and academic program needs.

“SCUSD went through a very thorough RFP process that included full-day demonstrations from each of the finalists. In an attempt to keep up with the constantly changing world of information technology, SCUSD is shifting from using technology as a tool for student information consumption to using technology more creatively, such as demonstrating what students know as a result of their instructional activities. Infinite Campus provides us with the tools to accomplish this,” says Terry Kritsepis, SCUSD Assistant Superintendent of Information and Education Technology.

Infinite Campus is a district-wide single solution that provides monthly product enhancements at no additional charge. This way, SCUSD will keep current of changes in technology, classroom management and reporting requirements.

In addition, SCUSD will have access to the Infinite Campus award-winning service and support team, who consistently maintain a 97 percent satisfaction rating. Strong California user groups and a Client Executive based in California will ensure productive networking opportunities and personalized service.

Ashton Faires, Campus Senior Sales Manager, comments on the SCUSD decision. “Infinite Campus presented SCUSD with many advantages. First, in these uncertain times of industry mergers and acquisitions, Infinite Campus has proven success as a stable company, maintaining one product and the same CEO since its beginning. In addition, Infinite Campus provides robust functionality throughout its product that sets it apart from other vendors. Finally, Infinite Campus is scalable for large districts, like SCUSD. Over the last two years, when California districts have included demonstrations of Infinite Campus in their RFP selection process, Infinite Campus has been awarded the RFP contract every time. We are excited to begin our partnership with SCUSD.”

SCUSD is scheduled to go-live in April 2014.

About Sacramento City Unified School District

Established in 1854, Sacramento City Unified School District is the twelfth largest school district in California and one of the oldest in the western United States. SCUSD serves 47,900 students on 82 campuses. Alumni from SCUSD’s schools range from U.S. Supreme Court Justice Anthony Kennedy to nationally renowned political scholar Dr. Cornel West. Graduates from SCUSD’s class of 2011 are currently attending Harvard, Stanford, UC Berkeley, UC Davis and host of other prestigious universities. www.scusd.edu
