Rhode Island Renews Infinite Campus SIS with Preferred Vendor Status

July 20, 2018 – Blaine, Minn. – Infinite Campus, the most trusted name in student information, and CustomTech Software (CustomTech), an Infinite Campus Northeast Channel Partner, have again earned preferred vendor status with the state of Rhode Island Department of Education (RIDE). This allows Rhode Island school districts and the state to purchase Infinite Campus without a request for proposal (RFP) for a new student information system (SIS).

RIDE evaluates multiple SISs in pursuit of finding a solution that fits the needs of both Rhode Island districts and the state. Infinite Campus has been supporting Rhode Island school districts since 2007, and has the proven experience to meet the diverse needs of districts and the state.

“We are excited about the opportunity to provide Rhode Island districts with the nation’s leading SIS, backed by our deep services and support expertise. The partnership provides districts with the best SIS available in the industry, coupled with a proven implementation methodology,” said Alan Lacher, President at CustomTech. “Our expertise in K12 systems integrations ensures a smooth transition to Infinite Campus for Rhode Island districts. We are geared towards focusing on what really matters – improving education for students.”

Infinite Campus is the industry’s innovator and has been since its founding 25 years ago. Infinite Campus has a long-standing history of success providing comprehensive products and services to districts across the country. Built from the ground up as the first fully Web-based, integrated system, it was significantly ahead of the competition.

About Infinite Campus

Infinite Campus manages 7.8 million students in 45 states. For 25 years, Infinite Campus has successfully implemented its solutions for 2,000+ customers of all sizes, from those with fewer than 100 students to those with more than 600,000 students. Infinite Campus customers include school districts, regional consortia, state departments of education and the federal government. www.infinitecampus.com
