# CUSTOMTECH BACKPACK

Significantly reduce your districts mailing costs and go paperless by posting report cards, progress reports, transcripts and more to the portal with this POWERFUL tool.

Post content such as custom reports and documents to your Infinite Campus portal to share with parents and students.

Benefits

- Reduced Mailing Costs
- Increased value of Campus Parent and Campus Student
- Improved Communication
- Teachers can access documents from previous calendars on an individual student
- Robust auditing and reporting of parents views and acknowledgments of reports
- Uses include custom report cards, custom transcripts, student request reports, class roster reports, census verification reports, sharing in-house developed reports, and state reporting results.

Key Functionality

- Allows staff to view custom reports in the Campus application
- Administrative dashboard to control creation and availability of reports
- Flexible Upload tool allows the inclusion of a wide array of documents
- Audits to show what documents have and have not been viewed
- Manage Documents - take offline, delete, organize in folders.
- Administrators can configure documents with custom acknowledgments and messages where parent/guardian confirm download/review of the document
