

Implementation

Every district wants their implementation of Infinite Campus to be successful based on the unique needs and resources they have available. Infinite Campus implementation teams provide extensive services to guide districts through the implementation process. Our process consultants, data conversion team, project managers and trainers average 10 years of experience with Infinite Campus.

Continuous Training Program

Campus Community

- Videos for those users who want to watch how to complete a task
- Documentation for those who want to read how to complete a task
- Simulations for those who want hands on activities to learn to complete a task

Campus Passport

- Paid subscription that features role-specific, on-demand learning
- Access to classroom training, Webinar-based scheduling training and new feature updates
- Free training opportunities at Infinite Campus headquarters
- Regular release highlight videos and time sensitive tool updates

Optional Services Available

Custom Development

Specialized services to design custom reports, create specialized data extracts, and provide best practices when integrating external third-party solutions are available (additional cost).

Process and Business Consulting

Use advanced system features and align business practices with Infinite Campus for maximum efficiencies by connecting with our process consultants (additional cost).

Implementation was phenomenal.

The organization and guidance from our Campus Trainer during implementation was fantastic.

Susan Heidt, Director of Technology
