# Infinite Campus

INTRODUCING THE #1 TRENDING STUDENT INFORMATION SYSTEM IN THE UNITED STATES

Join Us in Transforming K12 Education®

Infinite Campus provides districts with the tools needed to streamline student administration, enable stakeholder collaboration, and personalize learning. The SIS serves as a district-wide transactional data warehouse, allowing student data to be entered once and used across the district in real-time, supporting data-driven decision making. The Infinite Campus SIS includes 1,500+ core modules and tools, including: Administration, Communication, Instruction, Curriculum, School Services, Campus Community, Reporting & Analysis, Interoperability, and more!

THE INFINITE CAMPUS SIS SUPPORTS:

- **10 million** students
- **46** states
- **2,800** districts
- **9** state education agencies

Don't just take our word for it

"

The SIS functionality, with its regular updates and enhancements, is well-liked amongst our users. **Campus is constantly evolving to incorporate updates to education** and stay at the forefront of innovation. It is the future of district data management.

Nicole Leach-Holland, Manager of Data Systems and Analytics
Round Lake Area Schools

"

The ability to house almost all our student-related systems and data within a SINGLE system is huge! **Not having to support 'data sharing' between systems has been a real advantage.** All student-related data under a single system, that's the genius of the Infinite Campus vision/system!!

Bryan Mulvany, Executive Director Information Systems
South-Western City School District

"

Infinite Campus is innovative, flexible, and always ready for the next challenge. **The company grows with our needs.** I believe Infinite Campus can lead us into the 22nd century because it looks to the future and is solving tomorrow's problems.

Dr. Lorna R. Lewis, Superintendent of Schools
Malverne Union Free School District

"

Infinite Campus is more than a vendor, they are a partner. **Campus products are well made, well executed, and well supported.** You can't do anything transformative in a modern learning environment in a legacy system. Switch. You gotta do it!

Eric Hileman, Executive Director of Information Technology
Oklahoma City Public Schools

"

Infinite Campus is an all-in-one product that tracks everything related to students. This comprehensive functionality includes everything from grades and attendance to health records and disciplinary actions. Overall, Infinite Campus provides a comprehensive solution that helps Missoula County Public Schools' staff manage their day-to-day operations more efficiently and effectively.

Ray Schurman, Information Support Specialist
Missoula County Public Schools
